TRI-COUNTY CRADLE TO CAREER COLLABORATIVE

TCCC's vision is that all children are embraced by our community as our own and supported to reach their full potential in school and in life, cradle to career. Our mission is to build collective power to transform education by changing systems to allow Black and brown children to achieve their goals. We have brought together a cradle to career network to address the persistent and systemic educational inequities in Berkeley, Charleston, and Dorchester counties. With the support of back-bone Team staff, we work to close the educational equity gaps at every stage along the cradle to career educational journey. Using the StriveTogether collective impact framework, we are aligning around a common vision, using data to hold each other accountable, taking collective action, and advocating for equitable, systemic change.

TCCC is dedicated to becoming an anti-racist organization. We have committed to examining how racism lives in each of us as individuals and in the fabric of our organization and its policies, culture, and traditions. We hold ourselves accountable to equitable and excellent outcomes in the tri-county region in which we work by providing consistent, transparent, and candid reviews to our staff, Board, and partners on our strategies and commitments. We are also committed to educating ourselves and taking action over time to grow an anti-racist organization. We come to this task with deep humility, knowing that we have much to learn.

We seek to create significant and deep impact in each of the 6 Cradle to Career milestone areas:

- Students will enter kindergarten ready to learn.
- Students will master critical math and literacy concepts in 3rd grade.
- Students will master critical math and literacy concepts in 8th grade.
- Students will graduate high school ready to succeed in college or the modern-day workforce.

- Students will enroll in a college or career program or obtain employment in the modern-day workforce.
- Students who enroll in college or a career program will graduate ready to enter the modern-day workforce.

Our backbone Team serves as a catalyst to unify and convene. We work in the space between systems to connect multiple entities into a seamless network of student support. We are process experts trained in results-based accountability, continuous improvement, complex systems change, equity, research, business operations, project management, communications, data strategy, human centered design, and group process facilitation.

Our backbone Team supports our partners and action networks focused on eliminating the disparities at each milestone. They report progress towards these milestone goals as well as support networks in identifying what intervention strategies are working to close the equity gaps. They encourage collective learning and continuous improvement. The Team is the “connective tissue” that holds the partnerships together and enables the educational equity eco-system to function more effectively and efficiently.
