TRI-COUNTY CRADLE TO CAREER COLLABORATIVE
AMERICORPS VISTA 2022

The Charleston region continues to be a tale of two cities in which the region's educational systems continue to contribute to the educational disparities that exist between white, Black, and brown students. Over the past few years, awareness of the disparities has been elevated, the gap has persisted, and, in some cases, the gap has widened.

The current systems that support children and families needs to be revamped, including embedding an anti-racist lens into the foundations of their implementation. Adequate systems of support, including affordable housing, access to high quality education opportunities, access to jobs that pay living wages, and fair and just treatment that allows all citizens to thrive, versus merely survive, as in the current system.

This position is an incredible opportunity for a highly motivated individual to increase equitable access and adoption of broadband, technology, and skills throughout the tri-county region with a focus on marginalized rural and urban communities. Reporting to the Digital Inclusion Project Manager, the Project and Data Assistant VISTA will assist with program design, data collection and analysis, and aligning community partners to build scalable, sustainable models that achieve stated short, intermediate, and long-term outcomes.

POSITION OBJECTIVE:

- Assist with coordinating digital access efforts in the tri-county region
  - Project Planning
  - Monitoring
  - Evaluation
  - Reporting
  - Budget Development and Management
  - Project Team Alignment
- Track policy movement of broadband access and infrastructure projects, initiatives, and challenges in the state of SC.
- Research potential partners for the initiative
  - Education
  - Healthcare
  - Public Safety
  - Workforce Development
  - Housing
  - Homelessness
  - Broadband
  - Economic Development
  - Technology Advocates
- Ensure real-time data to improve the development of the region's digital equity initiatives and priorities.
